

POWERPACK Collation Shrink

Cost efficient and stable

Collation shrink film is an economical packaging solution for consumer multi-packs. The compact and stable packaging allows easy transportation and storage for producers, retailers and end-consumers.

Powerpack by Unterland Flexible Packaging GmbH is a high-quality polyethylene film, which is available as single or 3-layer film. It ensures excellent stability and safety as well as cost efficiency.

Applications for collation shrink are beverage

packaging such as PET bottles, cans or glass bottles (e.g. drinks, preserves or baby food).

Your advantages:

- Extremely compact and stable packaging units
- Efficient protection of the packaged goods
- Cost efficient use of packaging material
- Trouble-free packaging process
- High transparency
- Excellent advertising – quality print up to 10 colours
- Perfect packaging performance

Excellent appearance and highest transparency

Excellent print quality and highest film clarity result in an attractive display with outstanding visibility of your product, providing excellent brand presentation at the point of sale.

Powerpack collation shrink film fits like a second skin whilst providing excellent quality, the highest transparency and perfect packaging performance.

Stable and strong

POWERPACK Premium: Outstanding gloss, high transparency and excellent stability of the package. Fulfils the highest demands in the premium segment.

POWERPACK Performance: Very good optical properties balanced with keen value for money.

POWERPACK Basic: Cost-efficient packaging with good shrinking and film strength as well as high machine-ability.

POWERPACK Non Fusion: Secondary packaging for wrapped multi-packs allows easier withdrawal at the point of sale.
